The 4 priorities

Protecting citizens and freedoms

Ensuring effective control of the EU's external borders and further developing a comprehensive migration policy. Fighting terrorism and cross-border/online crime, increasing the EU's resilience against both natural and man-made disasters.

Developing a strong and vibrant economic base

Building a resilient economy by deepening the Economic and Monetary Union to ensure that Europe is better prepared for future shocks, completing the banking and capital markets union, strengthening the international role of the euro, investing in skills and education, supporting Europe's businesses, embracing digital transformation, and developing a robust industrial policy.

Building a climate-neutral, green, fair and social Europe

Investing in green initiatives that improve air and water quality, promote sustainable agriculture and preserve environmental systems and biodiversity. Creating an effective circular economy (where products are designed to be more durable, reusable, repairable, recyclable and energy-efficient) and a well-functioning EU energy market that provides sustainable, secure and affordable energy. A faster transition to renewables and energy efficiency, while reducing the EU's dependency on outside energy sources. Implementing the European Pillar of Social Rights.

Promoting European interests and values on the global stage

Building a robust foreign policy based on an ambitious neighbourhood policy with 16 of its closest eastern and southern neighbours and a comprehensive partnership with Africa. Promoting global peace, stability, democracy and human rights. Ensuring a robust trade policy in line with multilateralism and the global rules-based international order. Taking greater responsibility for security and defence, while cooperating closely with NATO.
